

Arvoisa vastaanottaja!

Näistä alla olevissa linkeissä käsiteltävistä asioista Suomen media vaikenee lähes sataprosenttisesti.

Onko neljän saksalaisen professorin; Peter Brandtin, Hajo Funken, Harald Kujatin ja Horst Teltschikin rauhanaloite ratkaisu Ukrainan sodan lopettamiseksi? Tästä aloitteesta voitte lukea linkeistä 2 ja 11. Sarkozy peräänkuuluttaa suunnitelma B:tä siltä varalta, että nykyinen Ukrainan hyökkäys epäonnistuu.

Miksi Venäjän talous kasvaa kaikista pakotteista huolimatta? Tästä kertoo Scott Ritter, kirjailija, kansainvälisten suhteiden analyytikko, entinen Yhdysvaltain merijalkaväen tiedustelu-upseeri, entinen Yhdistyneiden Kansakuntien erityiskomission asetarkastaja. "Venäjän talous on Venäjän historian vahvin".

Venäjä vie edelleen öljyä maailmalle, välikäsien kautta myös Saksaan. Saksan talous ei ole saavuttanut kasvua ja on syvässä kriisissä. Se on Saksalle rakenteellinen kriisi, joka kulkee käsi kädessä geopoliittisten muutosten kanssa.

Köyhdytettyjä uraaniaseita (DU) käyttävä Iso-Britanniasta saatu Challenger 2 - panssarivaunu on menetetty taistelussa Ukrainassa.

Naton pääsihteeri Jens Stoltenberg myönsi EU-parlamentin ulkoasiainvaliokunnassa syyskuun 9 päivänä pitämässään puheessa selkeästi ja toistuvasti, että Putin teki päätöksen hyökätä Ukrainaan Naton laajentumisen pelossa.

On jo aika ottaa rauhanneuvotteluehdotukset vakavasti käsittelyyn.

### **karlof1's Substack – September 21, 2023 -Lavrov's Devastating UNSC Presentation**

...Albania is the current chair-holding nation. Lavrov turned the tables on him.

Imagine a scoring thrust while fencing:

"All the facts of the 'engineering' of the Ukrainian crisis have long been known, but they are trying in every possible way to silence, to 'cancel' the entire history until 2014. Therefore, the topic of today's meeting, proposed by the Albanian presidency, is very opportune and allows us to restore the chronological chain of

events, and it is in the context of the attitude of the main actors to the implementation of the principles and goals of the UN Charter." ...

Germany is in a deep crisis. The economic crisis that has been shaking Germany for some time is reaching a new level. Germany is the only G7 country not achieving any growth. For the first time in history after 1949, Germany experienced a slump in the economic growth curve that had previously been constantly rising. But unlike previous crises, the current crisis cannot be easily resolved. It is a structural crisis for Germany that goes hand in hand with geopolitical changes.
