

MAAILMALLA TAPAHTUU – SUOMESSA VAIETAAN

17.10.2022, Nr. 9.

Arvoisat vastaanottajat,

Maailmalla tapahtuu – Suomessa vaietaan. Jälleen kerran kansainvälisiä linkkejä teemoihin, joista Suomessa ei paljon puhuta.

Newsweek'in artikkeli 4.10.2022 (linkki alla) otsikolla **"As NATO Member, Finland Could Have Nuclear Weapons 600 Miles from Kremlin"**, ja presidentti Sauli Niinistön epämääräinen kommentti siihen, huolestuttaa paitsi valveutuneita suomalaisia, myös rauhaa ja ydinaseetonta maailmaa kannattavia kansalaisia ja järjestöjä muualla maailmassa.

Suomi on lopullisesti menettänyt maineensa maailmanlaajuisen tasa-arvon, rauhan, kestävän kehityksen ja kansojen välisen yhteistyön edistäjänä.

Suremme maamme ja koko maailman kohtaloa!

"What kind of peace do I mean and what kind of peace do we seek? Not a Pax Americana enforced on the world by American weapons of war.... I am talking about genuine peace — the kind of peace that makes life on earth worth living — the kind of peace that enables... [people] and nations to grow and to hope and to build a better life for their children — not merely peace for Americans but peace for all men and women — not merely peace in our time but peace in all time." **John F. Kennedy, 1963**

Der Spiegel – 30.9.2022 - Sabotage in the Baltic - Attacks Expose Vulnerability of European Infrastructure

Extract:

"The search for the perpetrators has begun following Monday's sabotage attack on the Nord Stream pipelines. Which countries could have been behind it, and how secure is Europe's critical infrastructure at the bottom of the sea? ...

The Germans were warned in summer by the CIA about a possible attack scenario on the Nord Stream pipelines. U.S. intelligence claimed to have intercepted Russian communications in which concerns were expressed about possible Ukrainian attacks on Western infrastructure. The Ukrainians allegedly tried to rent a boat in Sweden for this purpose. The CIA did not consider the scenario of a Ukrainian attack to be very credible, but the mere fact that the possibility of an attack on Western infrastructure was mentioned by the Russian side prompted the Americans to warn the Germans about the scenario."
