

KÖYHDYTETTYJÄ URAANIASEITA UKRAINAAN JA PALJON MUUTA. 12.4.2023, Nr 22

Arvoisat vastaanottajat

Presidentti Sauli Niinistö, Suomen hallitus, kansanedustajat sekä valtamedian edustajat

Suomi on nyt NATOn, maailman julmimman sotakoneiston jäsen. Uusi musta kausi Suomen historiassa on alkanut. Jää historioitsijoiden pohdittavaksi miten tämä uskomattoman nopea käänne tulee vaikuttamaan kansojen väliseen yhteistyöhön, demokratiaan, rauhaan ja kansalaisten hyvinvointiin.

On aivan käsittämätöntä, että Suomi täysin varauksetta on liittynyt sotilasliittoon, joka avoimesti käy sotaa omia liittolaisiaan vastaan, kuten Michel Chossudovski selittää alla (kohta 13.).

On myös täysin käsittämätöntä, että Suomessa ei kritisoida avoimesti ja äänekkäästi, Iso Britannian lähettämiä DU-aseita (köyhdytettyjä uraaniaseita) Ukraina. Nämä aseet aiheuttivat julmia seurauksia mm. Irakissa, jossa USAn/NATOn joukot käyttivät niitä.

Naiset Rauhan Puolesta järjesti tästä asiasta tilaisuuden Suomen eduskunnassa syyskuussa 2006, jossa mm. irakilainen lääkäri, tohtori Jawad Al-Ali näytti kuvia lapsista, jotka olivat DU-aseiden uhreja. Kammottavia, epäinhimillisiä kuvia, jotka iskostuivat mieleen ikuisesti.

Lopuksi rauhan ja maailmanlaajuisen tasa-arvon puolesta elämänsä uhranneen Martin Luther Kingin miete:

”Olemme oppineet lentämään kuin linnut, uimaan kuin kalat, mutta emme ole vielä oppineet yksinkertaista taitoa elää yhdessä veljinä.”

AP News – March 24, 2023 - A look at the uranium-based ammo the UK will send to Ukraine

Excerpt:

"... The IAEA notes that depleted uranium is mainly a toxic chemical, as opposed to a radiation hazard. Particles in aerosols can be inhaled or ingested, and while most would be excreted again, some can enter the blood stream and cause kidney damage.

"High concentrations in the kidney can cause damage and, in extreme cases, renal failure," the IAEA says."

UK will send Ukraine armour-piercing shells, containing depleted uranium, for use with its Challenger 2 battle tanks.

"The United Kingdom... announced not only the supply of tanks to Ukraine but also shells with depleted uranium. If this happens, Russia will be forced to react," Putin told reporters after talks with China's leader Xi Jinping at the Kremlin.

"If all this happens, Russia will have to respond accordingly, given that the West collectively is already beginning to use weapons with a nuclear component," Putin said, without elaborating.

The project had been discussed behind closed doors in 2021 as outlined by Seymour Hersh, but the actual planning of this so-called "secret operation" started in December 2021 extending to its execution in June 2022 and the actual sabotage on September 26-27, 2023. (see map below).
