Varoituksen sanoja kuuluu Ukrainan liittymisestä Natoon. Sanotaan, mm. että kustannukset ovat suuremmat kuin hyödyt ja että Naton jäsenyys ei välttämättä tuo turvallisuutta Ukrainaan.

Ja miten käy Ruotsin liittymisen Natoon? Lue mitä Euroopan unionin Luxemburgin tuomioistuimen tuomari Ulf Öberg kirjoittaa.

Olemme uuden aikakauden kynnyksellä, sanoi YK:n pääsihteeri António Guterres käynnistettyään keskustelun New Agenda for Peace -poliittisen tiedotteen yhteydessä.

Jeffrey David Sachs (Yhdysvaltalainen ekonomisti, toimii Columbian yliopiston The Earth Institutetin johtajana) kirjoittaa, että ”amerikkalaisten on kiireellisesti tiedettävä Ukrainan sodan todellinen historia ja sen nykyiset näkymät. Valitettavasti valtamediasta – New York Timesista, Wall Street Journalista, Washington Postista, MSNBC:stä ja CNN:stä – on tullut pelkkiä hallituksen äänitorveja, jotka toistavat Yhdysvaltain presidentin Joe Bidenin valheita ja piilottavat historiaa yleisöltä.”

Suomessa tehdyn kyselyn mukaan 61 prosenttia vastustaa ydinaseiden kuljettamista ympäri Suomen ja 77 prosenttia vastustaisi ydinaseiden sijoittamista maahan.

Ulkopolitiikan neuvoston puheenjohtaja Richard N. Haass (USA) sanoo, että todellinen vaara ja vakavin uhka globaalille turvallisuudelle on Yhdysvallat. Lue lisää The New York Timesin haastattelusta.

Muistakaamme Hiroshiman ja Nagasakin uhreja ja lopettakaamme ydinaseiden valmistus!

NYHETSBANKEN – 26 juli 2023 - EU-jurist: Natoanslutning möjlig först 2026

Idag skriver Ulf Öberg, domare i Europeiska unionens tribunal i Luxemburg, att Nato-medlemskap förutsätter en föregående grundlagsändring.

Uttalandet är en minst sagt sensationell vändning. Regeringen - den nuvarande liksom den förra - har valt att blunda för grundlagens krav. De har gått så långt att de rundat både riksdagens konstitutionsutskott som lagrådet, påpekar Öberg...

By Jeffrey D. Sachs, Special to The Kennedy Beacon

The American people urgently need to know the true history of the war in Ukraine and its current prospects. Damijan Blog 9 JULY 2023 - Will the Ukraine war be the undoing for the European Union?

To prevent hurting itself and save Ukraine, the European Union must, out of its own self-interest, distance itself from its self-righteous war narrative, abandon the militarization of its foreign policy, and stop believing that NATO enlargement will bring security.

By Michael von der Schulenburg, former UN Assistant Secretary-General, escaped East Germany in 1969, studied in Berlin, London and Paris and worked for over 34 years for the United Nations, and shortly the OSCE, in many countries in war or internal armed conflicts often involving fragile governments and armed non-state actors.

These included long-term assignments in Haiti, Pakistan, Afghanistan, Iran, Iraq and Sierra Leone and shorter assignments in Syria, the Balkan, Somalia, the Balkan, the Sahel, and Central Asia.
